All Advertisements will appear in new and beautiful type, will be well displayed, and made attractive, so that readers can see them at a glance.

THE
SALEM REGISTER

WAS ESTABLISHED IN THE YEAR 1800,

AND IS PUBLISHED ON

MONDAYS AND THURSDAYS,

AT

BY

JOHN CHAPMAN and CHAS. W. PALFRAY.

TERMS OF ADVERTISING.

JOB PRINTING, OF EVERY DESCRIPTION,

Executed with neatness and promptness at *The Register* Job Office.

BOOK, JOB, AND FANCY PRINTING

EXECUTED AT THE OFFICE OF THE

Salem Gazette, and Essex-County Mercury,
In the best Style, and on favorable terms.

The Salem Gazette,

Established Weekly, 1768; Semi-Weekly, 1796,

Is printed on TUESDAY and FRIDAY mornings, at \$3.50 per year, when paid in advance; \$4.00 when not in advance. The length of time which it has been before the public, and the extensive circulation it has obtained for more than a century, render it unnecessary here to enter into a formal exposition of its character. The intention is that it shall always contain the most important foreign and domestic intelligence, political, moral, and literary; original communications upon all subjects connected with the public welfare; a full and correct shipping list; business advertisements; and, in short, every thing that is usually found and expected in a Family newspaper.

The large country circulation of "The Gazette" (including "The Mercury," in which all new advertisements of "The Gazette" are published), renders it particularly valuable as a medium for the publication of Probate advertisements, sales of Real Estate, and other notices of interest to the farming population.

The Essex County Mercury;

OR, WEEKLY SALEM GAZETTE,

ESTABLISHED A.D. 1832,

Is made up from the reading matter of "The Salem Gazette," and is one of the largest and cheapest papers in New England. The subscription price is \$2.00 a year, when paid in advance. The quantity of reading afforded is much greater than is usually found in a newspaper; and, as it circulates extensively in all parts of the County of Essex, particular pains are taken to present all the local matters of the County. "The Mercury" is published every Wednesday morning; the price, when not paid in advance, is \$2.50 per year, payable semi-annually.

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instruments,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person, familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip-bone. If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods, we have several classes of silk and cotton, possessing different degrees of elasticity, —the stout silk being usually the most satisfactory. The sizes are, full length (of leg), three-quarters, half, or knee-hose, knee-caps, and anklets.

Also ELASTIC AND SPRING ABDOMINAL SUPPORTERS, SHOULDER BRACES, SUSPENSORY BANDAGES; APPARATUS FOR WEAK ANKLES, BOW-LEGS, CLUB-FEET, &c. Also CRUTCHES, of various and most improved kinds; SYRINGES; RUBBER URINALS, to wear on the person day or night, for males and females; GALVANIC BATTERIES; HEARING TRUMPETS, AURICLES, AND CONVERSATION TUBES FOR THE DEAF; RESPIRATORS, to prevent coughing on entering cold or warm air; together with many other articles for use of the sick and invalids.

For Ladies, separate rooms, and attendance by females.

OFFICE OF ATLANTIC WORKS.

We know by experience, and take pleasure in testifying, that we have found it in every instance fully equal to your claim, "that it is the best pump now in use."

We believe yours to be the only one yet constructed which will pump lard at all times and seasons of the year satisfactorily.

NORTH, MERIAM, & CO.

MESSRS. GEO. F. BLAKE & CO.:—

BOSTON, May 11, 1868.

Gents,—In reply to yours of the 9th inst., we would say, the pump you built for pumping *thick beer mash* works to our entire satisfaction; it throws a full stream of thick mash, or clear liquor, even when at boiling-point. It is all right in every particular.

We have used other styles of pumps, but yours is the only one that will pump hot beer mash, and keep the valves free.

The internal arrangement of the parts is so simple that it is not liable to get out of order. As we have used it now four months, has had no repairs, and it works as well to-day as when first put up, we therefore recommend it as invaluable to brewers.

Send for Circular. We will put them in in the best manner, on the most economical terms. Also all kinds of repairing to all other Furnaces, including tin, sheet-iron, or mason work, done promptly and satisfactorily. These Furnaces will be sold at wholesale to dealers at Foundry Prices, when ordered directly from the Foundry.
